

FRESHLY SQUEEZED MONTHLY

SEPTEMBER 2008

Freshly Squeezed offers premium customizable juices - kiwi, pomegranate, mango, to name a few - with tons of add-ons, like matcha, creatine, and whey.

THE IMPORTANCE OF A FULL APPLICATION

A typical franchise application has lots of questions for you to fill out. Questions ranging from your last jobs, to your financial resources, to personal references are usually included. This information allows the franchisor to ensure that you are a good fit for the franchise business. Franchisees who return completed applications quickly not only send a positive signal to the franchisor that they are committed to the business; it also gives franchisors and franchisees more time to work together to obtain financing, if necessary.
