

Our beverages are made using REAL FRUIT juices. We import fruits from around the globe direct to our commissary located in Toronto, Ontario. Oranges and grapefruits arrive monthly from Florida, kiwis from New Zealand, apricots from Morocco, mangos from India, pomegranate from Iran, coconuts and pineapples from Thailand, bananas from Central America and strawberries, blueberries and raspberries from around the World, depending on the season.

Additional store supplies are ordered from **Freshly Squeezed**. They have been designed, manufactured and imported in large quantities, shipped to our commissary. Stores order these supplies weekly which include cups, straws, napkins and seals. All supplies appropriately display our logos and trademarks, keeping in mind both quality and cost.
